STRATEGIC OBJECTIVES FOR 2024/2025

At a Board of Directors meeting held earlier this month in Monticello, the Strategic Objectives for the year were presented and discussed. The objectives include the following; By Laws update, website update, CLE p, committee structures and appointments and membership strategy.

Action was taken to secure the services of a website developer to update the SCBA website. Brian Rourke identified a qualified and economical website developer and we have begun the process of reviewing the website and making necessary changes. When completed, the site will include the name, website address and phone number of all SCBA members, in addition to other relevant content.
